We are looking for a
IT Quality Consultant (m/f)

Key Responsibilities

- You will work together with our consultants and team leaders in challenging and diverse customer projects in the area of Quality Management / CSV / eCompliance.
 - You are in direct contact with our customers and support them within the machCon GmbH consulting offer.
 - Provide compliance advice and support to ensure that activities are conducted in accordance with internal procedures, international standards (GxP, ICFR, GAMP) and Health Authority regulations.
 - Participation in execution, documentation and tracking of internal and external IT audits.
 - Oversight or execution of periodic reviews of IT systems.
 - In addition, you will contribute to the conceptual development of machCon GmbH services / consulting services.
-

Your Profile

- You have completed a higher education (Uni, FH, BA) in a technical or business related field or a corresponding professional education.
 - You have at least 2 years of professional experience as a consultant in the field of quality management - for example in CSV / eCompliance / Test Management.
 - You have profound knowledge in the conception and implementation of innovative quality assurance measures and audits.
 - You enjoy advising customers, like to travel and convey confidence and competence with your appearance.
 - Experience with the regulated environment of the healthcare industry.
 - Proactive personality, strategic mind, able to manage multiple tasks.
 - You share our values such as commitment, openness and integrity.
 - Fluent in English language; German language skills desired.
-

We offer

- A diversified consulting activity in an interesting and international customer environment with strategically relevant customer projects.
- The opportunity to develop further and take on responsibility.
- A professional consulting environment together with a young, highly committed team in a moderately growing company.
- Above-average opportunities for further training, a performance-related salary, and extensive additional benefits.
